Alex Kim
UX/Product Designer

(916)747-4186　　　http://alextkim.github.io　　　atk006@ucsd.edu

Education

University of California San Diego

Class of 2017
Majoring in: Cognitive Science w/specialization in Human Computer Interaction
GPA: 3.39

Design

idea8 │ school project │ 09/15 – 12/15 │

Ideate, Collaborate, Iterate. For a class project I got to work as a team to develop an app for UCSD Students (we decided to tackle creativity). Here, I got to develop my user research, interview and testing skills as well as technical skills like front-end development and visual design.

GetRead │ school project │ 01/16 – 3/16 │

Making sharing books a fun and easy way to express yourself! As a team of 3 I had the chance to collaborate with my colleagues from the Computer Science and Engineering department to create a mobile application that aimed to help UCSD students spread empathy.

Critical Design Project │ school project │ 01/16 – 3/16 │

Do you feel afraid when walking across campus at night by yourself? My team and I decided to tackle UCSD's scary atmosphere at night (it is huge and poorly lit) by designing a community of students to watch each others' backs. In this communications course I got to use the design skills I learned from other classes to collaborate with communications majors and fellow cogs majors

Designer │ Crossroads Campus Ministries (CCM) │ 04/15 – present

Designed multiple sweater logos for Crossroads Campus Ministries UCSD, and was given complete creative control.

Graphic Designer │ Redeemer Presbyterian Church │ 05/15 – present

Designed promotional posters for Redeemer Presbyterian's College Ministry to promote Redeemer throughout UCSD's campus. Collaborated with two other designers to create ticket designs for Redeemer's annual banquet.

Employment

Sunday School Teacher │ Redeemer Presbyterian Church │ 07/15 – present

Facilitate student learning of 3rd-4th graders. Coordinate with my lead teacher to create interactive ways to teach the curriculum, capitalizing on the usage of social and play activities and gestures.

House Manager │ Price Center (PC) │ 07/15 – present

Coordinate with coworkers to split tasks efficiently, and address customer needs in a timely manner to maintain a clean and presentable experience at UCSD's Price Center.

Skills

Communication	Design	Code
User Interviews	Adobe Illustrator	Html/CSS
Customer Service	Photoshop	Java
Teamwork	Balsamiq Mockups	Matlab
Team Coordination	Prototyping	Github
